Subject: Conflict Minerals Compliance Statement

Dear Valued Customer:

The United States Security and Exchange Commission recently issued its final rules requiring corporations to report the use of "Conflict Minerals" in the manufacture of their products. The current law, generally referred to as the "Conflict Minerals Law", was included as Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010.

"Conflict Minerals" in this context refers to specific minerals originating from mines controlled by armed groups in the Democratic Republic of the Congo or adjoining countries. The specific metals in question are:

Tin (Sn)	Metallic Tin or Cassiterite
Tantalum (Ta)	Metallic Tantalum, Tantalum Pentoxide
Tungsten (W)	Metallic Tungsten or Wolframite
Columbite Tantalite	(COLTAN)
Gold (Au)	

Plasma Technology Inc. is in full compliance with this legislation. Plasma Technology Inc. has conducted a country of origin inquiry of its suppliers and determined that the conflict minerals utilized by Plasma Technology Inc. that are necessary to the functionality or production of Plasma Technology Inc. products do not originate from these restricted countries.

Should you have additional questions, please contact your Plasma Technology Inc. sales support team.
